

Hello and welcome to you, up and coming cognitive scientists! This document will guide you through the process of submitting your abstract, help improve other's work by sending a useful peer review and becoming a published author in our proceedings.

Overview

These are the basic steps to the MEi:CogSci conference 15-17 June 2023 in Budapest.

- 01 May 2023** Registration
- 10 May 2023** Abstract submission
- 21 May 2023** Peer-review submission
- 31 May 2023** Finalize your abstract submission

Registration

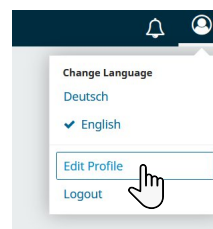

Deadline: 01 May 2023

(This is not an iron-hard deadline, but in order to submit your abstract you have to be registered by 10 May 2023.)

If you **already have an account** from last year, please use it. If you don't remember it, search your mailbox for emails with [ProcMEiCogSci] in the title.

You could make our editing jobs easier by making sure that your affiliation is written exactly as specified:

- Comenius University Bratislava
- Eötvös Loránd University
- University of Ljubljana
- University of Vienna

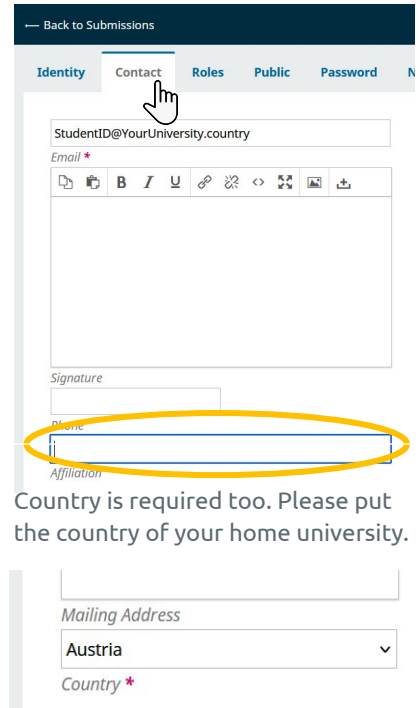

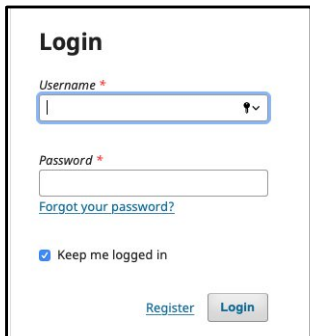

New users, please register at the proceedings website with **your official university email address**:

<https://journals.phl.univie.ac.at/meicogsci/user/register>

(Check your mailbox for a verification link.)

Once you are registered, **log in at**:

<https://journals.phl.univie.ac.at/meicogsci/login>

Country is required too. Please put the country of your home university.

Abstract submission

Deadline: **10 May 2023**

Both for poster presentations (1st year students) or talks (2nd year) in the MEi:CogSci conference, you will submit an abstract, review other submissions and, finally, receive and implement reviews on your abstract.

To start submitting your abstract, [log in](#) (you can use the link above), then press the button “New Submission”.

1. Start:

- For Section: select “Talk” or “Poster”.
- Read and check the requirements.
- Leave “Comments for the Editor” blank (unless you need us to know about something)
- Click “Save and continue”.

2. Upload Submission:

Caution! This is not your actual abstract submission yet :) You don't have to upload anything (this is just a system default), but you have to click “Save and Continue” anyways.

3. Enter metadata:

This is your actual abstract submission :)

Making sure that your abstract complies with the [Author Guidelines](#), (character limit and citation style) carefully enter the **title** and the **main text of the abstract**.
(Please do not enter a subtitle. Anything that you enter in the “subtitle” field will have to be ignored.)

Lastly, you can add other contributors to your submission, i.e. colleagues, whom you collaborated with, or, if they have requested it, your supervisor. If you do this, Name, Contact (email), Country and Affiliation are the only details we need.

4. Confirmation:

Click “Finish Submission”, and you are done for now. Congratulations!

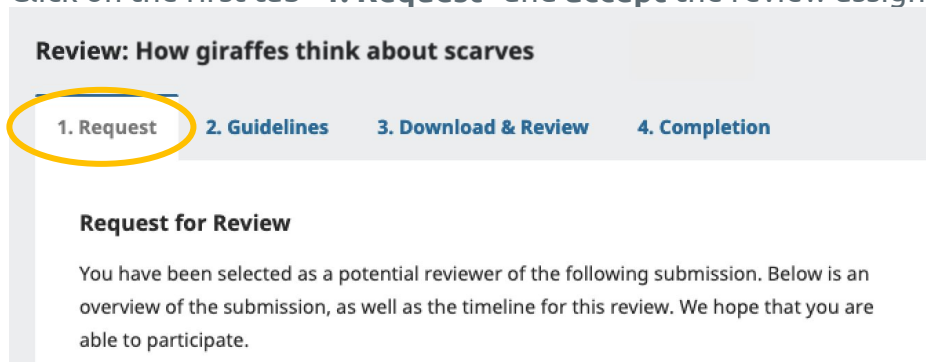

- If you spot a mistake after submission but before the deadline, you can still edit your abstract. To do so, log in to the journal website and just click the “View” button next to your submission, then on the tab “Publication”. Please do not make any more changes after the first abstract submission deadline.

Submit your reviews (of others' abstracts)

Deadline: **21 May 2023**

By 15 May 2023, you will receive 2 emails (possibly at different times) with information regarding your review assignments. You will review 2 abstracts.

0. Use the link in the **emails** to log in and **read** your assigned abstracts.
1. Click on the first tab "**1. Request**" and **accept** the review assignment

Review: How giraffes think about scarves

1. Request 2. Guidelines 3. Download & Review 4. Completion

Request for Review

You have been selected as a potential reviewer of the following submission. Below is an overview of the submission, as well as the timeline for this review. We hope that you are able to participate.

2. In the second tab, "**2. Guidelines**", you will see our general review guidelines (these will also be visible when you enter your review); click "Continue to Step #3".
3. **Download & Review:** This is the important bit! (But ironically, nothing to download)
 - a. Please, read the **guiding questions** carefully and answer them in the boxes below. This is essentially your review.
You can also upload a file (e.g. a .docx with tracked changes/comments), if you want to comment on specific parts/correct typos. This is a voluntary extra effort, supplementary to the actual review.
 - b. In the last section, choose a **Recommendation** as indicated below. All authors will be able to submit a revision, no matter what you suggest. Your recommendation gives the editorial team an idea if they need to look closer at any particular submissions.

Recommendation

Select a recommendation and submit the review to complete the process. You must enter a review or upload a file before selecting a recommendation.

Submit Review Save for Later Go Back

To continue with your second review, either click on the link in the email you received for your second review assignment, or click on the submission you have been assigned to review from your Dashboard. You can always access your submission log by logging in at: <https://journals.phl.univie.ac.at/meicogsci/submissions>

Submit your final abstract version

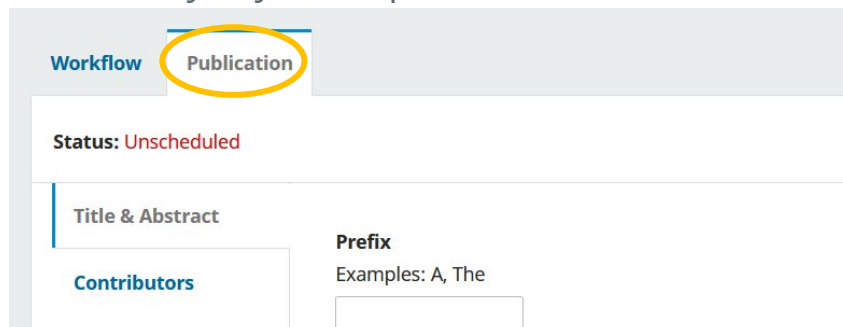

Deadline: **31 May 2023**

By 24 May 2023, you will have received an email with the subject “Editors decision” (containing at least 2 reviews from your peers and 1 from your teacher). You can take your time thinking about how to implement and revise accordingly.

If you submit an abstract together with colleagues, each of you receives at least one review. During the revision procedure, please take all reviews into account. Please make sure that every member of the group submits the same version of the revised abstract. Only one of them will be published.

Here’s how to finalize your submission (by 31 May 2023 23:59 CEST):

0. [Log in](#). On your Dashboard, click “Submissions” (first item on the left bar).
1. Access the relevant submission by clicking on “View” and then edit your text on the “Publication” tab. If you want to preserve your first submission text, please save it locally on your computer – older versions cannot be recovered here!

2. After revising your abstract, please double-check that the final text still **complies with our [Author Guidelines](#)** (e.g. character limit and style)!
3. To finalize your submission, download the [Confirmation Statement](#) form and insert your name.

Then, making sure you are in the “Review” tab,

at “Revisions” or via the button on the top right, upload your filled in form. It’s a bit anticlimactic, but there won’t be a final notification of success here.

Once you have done all that, the peer-review and revision process is complete and all that is left for you is to prepare for the conference itself. See you in Budapest on 15-17 June 2023, and congratulations on being a published author!

In case you have any problems or concerns regarding the submission process, feel free to contact meicogsci@univie.ac.at.
